## Welcome from the Speedcar Association of NSW!

The Australian Speedcar Championship was last held in NSW in 2006, when American Davey Ray claimed his maiden title having gained the lead with only two laps to go from 38-lap leader & fellow American, Jerry Coons Jr; at the now-named Sydney Speedway in Parramatta.

Now five years later, in conjunction with Speedcars Australia, the Speedcar Association of NSW is again hosting this prestigious event, celebrating not only the 70<sup>th</sup> running of the Australian Speedcar Championship but also 75 years of Speedcar competition in NSW! And what better surrounds to celebrate Australian Midget racing's spectacular history but the picturesque Lismore Speedway showground venue!

Along with Promoter Dave Lander, we are looking forward to accommodating a large contingent of competitors from across the country, in addition to international racers from New Zealand and the United States. There are also plenty of shows along the East Coast to assist competitors with Championship qualifying (3 shows from & including the 2010 title). These include shows at Lismore Speedway (Sat 12<sup>th</sup> Feb) & Sydney Speedway (Jan 22<sup>nd</sup>, 25<sup>th</sup>, 29<sup>th</sup> & Feb 5<sup>th</sup>). We welcome all to attend in preparation for the Championship.

Keeping this in mind, we have compiled the following pack for any teams interested in contesting the title and any lead up events. Contact details, maps, important dates, race schedules and information on the Championship social events including the 2011 Calcutta!

We hope this assists all intending to make the trip to the 2010/2011 Speedcar Championship and are looking forward to a great week of racing and events!

Good luck to all,  
SANSW Directors & Committee.

**SPARE CAR DETAILS – Per Current Rule per Speedcars Australia 2010/2011 Rule Book:**

*7.14.8 - A driver having already qualified for a race or a Championship Final may substitute another car, forfeiting all qualifying points and starting ROF.*

Spare cars may be nominated for a fee of \$100 providing they are registered with Speedcars Australia. This spare car nomination is to be completed on the competitor nomination form. This allows the nominated competitor access to the spare vehicle in the event their fully nominated car is unable to be used during competition.

If a different driver than the above nominated driver on the form is put into the nominated spare car prior to the event but after nominations close, the full late fee of \$400 will still be charged to enter the additional driver/car in the event.

Any spare cars taken to the event which are not previously nominated will be excluded. The spare car must complete and meet scrutineering requirements per current procedures.

The spare car will not be included in grid draws for qualifying heats and does not entitle the registered car owner and/or driver to additional gate entry passes.

Changing cars under the above quoted rule (both own nominated spare or borrowed nominated spare) will result in the following:

**Heat races:**

If the spare car replaces the nominated car then the driver loses all points accrued to that point and will start ROF in the first heat driven in the spare car only, and be gridded for remaining events per the original format/draw.

**Pole Shuffle:**

If the spare car replaces the nominated car after heats are completed, and the driver has qualified for the pole shuffle, the driver/car will be classed as the last placed entrant in the pole shuffle line-up only and return gridded for remaining events.

**Feature Races:**

If the spare car replaces the nominated car after heats are completed (and the pole shuffle where applicable), the driver/car will start ROF in their qualified main event. For example, ROF in the B Main with potential to transfer to A Main grid; or ROF (24th) in the A Main if directly qualified.

These requirements will be imposed again if the driver elects to return to his original car and/or another nominated car.

**IMPORTANT:** In the event a competitor elects to use a spare Speedcar they must notify the Speedcar Australia Race Director prior to taking to the track for the next race. The Race Director and/or Chief Steward will determine if the existing car can be replaced with a spare car.
